FISCAL ANALYSIS

ASSUMPTION

Oversight was unable to receive some of the agency responses in a timely manner due to the short fiscal note request time. Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

Officials from the **Department of Labor and Industrial Relations** assume the proposal will have no fiscal impact on their organization.

Oversight assumes applicants race information is captured in the Office of Administration Electronic Application System (EASe) and Management Application Information Resource System (MAIRS) application screens for all applicants who apply through EASe. Oversight assumes this may require ITSD cost to update the application forms.

For fiscal note purposes, Oversight will assume OA-ITSD could implement this proposal with existing resources. If this proposal would create an unanticipated additional workload or if multiple proposal are implemented which would require more staffing than anticipated, OA-ITSD could request resources through the budget process.
